**Course Director**

**Dr. Kathy Swafford** is a Board Certified pediatrician who began practice in 1987. She trained at the Health Science Center of the University of Texas at Houston before coming to southern Illinois. She has performed abuse exams throughout her career, including providing court testimony.

In 2009 Dr. Swafford became the Medical Director for Children’s Medical Resource Network, a network of medical providers dedicated to the timely, humane and appropriate medical evaluation and care of children suspected to have been abused or neglected.

In 2014 Dr. Swafford became Board Certified in Child Abuse Pediatrics by the American Board of Pediatrics.
Meghann Hennelly, MD attended medical school at the University Of Chicago Pritzker School Of Medicine. She completed her residency in general psychiatry at Johns Hopkins Hospital and completed fellowship at the Child and Adolescent Psychiatry Training Program of Columbia and Cornell Universities. Dr. Hennelly previously directed the Pediatric Stress and Anxiety Disorders Clinic at the University of Illinois at Chicago and currently works in the area of tele psychiatry, along with her ongoing role as an Illinois Doc Assist Consultant. Her areas of interest include mindfulness based therapies, trauma, mood and anxiety disorders, and increasing access to psychiatric care for underserved populations.

Rhapsody Mason, LCSW is a Licensed Clinical Social Worker with Illinois Doc Assist, and provides consultation to providers around psycho-social concerns. Often this involves providing assistance in identifying local referral resources and navigating complex service systems. Rhapsody educates providers on Illinois DocAssist’s services and ways in which to leverage these services in practice. Additionally, Rhapsody develops and delivers Illinois DocAssist educational workshops and marketing materials. Throughout her career, Rhapsody has been dedicated to serving children and their families with unique social and emotional needs in a variety of capacities. She has experience working in early intervention programs, pediatric offices, therapeutic schools and preschool programs as well as therapeutic residential programs. Rhapsody received her Master’s degree in Social Work from The University of Chicago School of Social Service Administration and her Bachelor’s degree in Psychology from the University of Vermont. In addition to her work with Illinois DocAssist, Rhapsody is a therapist in the Child and Adolescent Psychiatry Department at the University of Illinois-Chicago.

Diane M. Misch, MD is an Assistant Professor of Clinical Psychiatry at The University of Illinois at Chicago, Institute for Juvenile Research. She is the Medical Director of The Illinois DocAssist Program, Medical Director of The Young Child Clinic, Medical Consultant for The DCFS and HFS Psychotropic Medication Consent Programs, and a child psychiatry consultant for the LEND educational grant focusing on childhood autism and other neurodevelopmental disabilities. She completed her nursing and medical education at Northwestern University, split her adult psychiatry residency training between Northwestern University and the University of Chicago, and completed a child and adolescent psychiatry fellowship at the University of Illinois. She is board certified in general adult psychiatry, child and adolescent psychiatry, and integrative medicine. She previously worked in the public sector concentrating on chronic mental illness, women’s mental health, family preservation, and forensic psychiatry.

Lucas Buffaloe, MD is an Associate Professor of Clinical Family and Community Medicine at the University of Missouri. He is a graduate of the University of Missouri School of Medicine and has been a faculty member there since 2012. As part of his family medicine practice, Dr. Buffaloe treats patients for opioid use disorder. He also works to educate medical students, residents, and practicing physicians on opioid addiction, the appropriate use of opioid analgesics, and other topics in addiction medicine and pain management.
Objectives

At the conclusion of this activity, participants should be able to:

- Discuss how trauma affects the health of children and families.
- Identify traumatic stress reactions and apply skills to screen and assess patients and family members.
- Discuss possible interventions for trauma and other pediatric mental health disorders in the primary care setting.
- Prioritize treatment with comorbidities and what medications to use.
- Extend skill in using medications and therapeutic interventions for the treatment of trauma in children and their families.
- Utilize effective communication skills to improve outcomes with children and their families.
- Review addiction identification and evidence-based treatments.
- Discuss the pharmacology of opioids as it relates to treatment of opioid use disorder (OUD) patients.
- Describe the fundamentals of office-based opioid treatment including the treatment of the co-morbid patient.
- Explain the process of buprenorphine induction as well as stabilization and maintenance.
- Discuss other approved antagonist and agonist medications to treat OUD.
- Discuss basic office protocols including medical record documentation and confidentially.
- Utilize evidence-based resources to ensure providers have the confidence to prescribe buprenorphine for patients with OUD.
- Apply for a MAT Waiver Training Certificate to begin treating patients with OUD.

General Information

This conference will be held in the Hancock Conference Center (Room F118-119) at John A. Logan College, 700 Logan Drive; Carterville, IL 62918. For general information regarding the course, please call (618) 833-6488.
